

THE CZARINA STRICKEN. PROSTRATED BY APOPLEXY. THE CZAR'S CONDITION EXTREMELY CRITICAL.

GRAND-DUKE GEORGE SAID TO BE DYING—THE CZAR TAILED FOR PROSTRATE—THE ORIGIN OF HIS MALADY—MEASURES REPORTED FROM LIVADIA RECEIVED IN THE CAPITAL—DAILY BULLETINS SENT TO QUEEN VICTORIA—THE CZAR'S RECENT INTERVIEW WITH THE EMPEROR.

Vienna, Oct. 20.—A dispatch from St. Petersburg to the "Neue Freie Presse" says that the Czarina, who had been resting constantly until today at her husband's bedside, has had a stroke of apoplexy. The Grand-duchess Xenia, her elder daughter, has broken down under the nervous strain and is obliged to pass most of the time in bed.

The Czar was tapped to-day for dropsy. It is improbable that the Princess Alix will reach Livadia in time to be married to the Czar with the Czar's death.

St. Petersburg, Oct. 20.—Conflicting rumors in regard to the condition of the Czar are increasing. Official circles either profess to have no information or positively refuse to furnish any; and several Russian journals, unable to get news otherwise, are sending correspondents to Livadia.

Berlin, Oct. 20.—General von Werder, German Ambassador to Russia, has lately been visiting in Berlin. Yesterday, in consequence of the receipt of urgent communications from the Russian Embassy here, he went to the palace and applied for an immediate audience with the Kaiser.

The application was at once granted, and at the close of the audience the Ambassador started with all possible haste for St. Petersburg.

Private telegrams from St. Petersburg say that the Czar's physicians have decided that he is suffering from blood poisoning. At the Foreign Office news of the Czar's death is expected at any moment.

The "Vossische Zeitung" says it has information that the marriage of the Czar with the Princess Alix of Hesse will take place at the bedside of the Czar.

The condition of the Czar's consumptive son, Grand-duke George, continues to be exceedingly serious. It is said in some quarters that he is dying.

London, Oct. 20.—The Czarina continues to send daily telegraphic bulletins as to the condition of the Czar from Livadia to the Queen and the Princess of Wales, the latter of whom purposes going to Livadia about the middle of November. The Czarina in her bulletins communicates to the Queen and the Princess the opinions of the physicians in attendance upon His Majesty, and these are of a much less alarming character than are the current public reports.

The condition of the Czar has grown worse during the week. Since Wednesday his limbs have become slightly affected by dropsy, and his sleep, which he takes only in short snatches, is frequently broken by spasms of the heart, attended with great difficulty and pain in breathing, which cause the Czar to think his last moment has come.

These spasms are always followed by excessive general collapse. Still his physicians do not despair of being able to prolong his life for months, but they positively decline to make any prediction as to how long he will live. His malady follows the course of a severe type of Bright's disease. The advice received by the Queen have certainly not led her to look for the immediate death of the Czar.

A dispatch to "The Globe" from Paris says that the rumor that the Czar is the victim of foul play is discredited everywhere in that city except in the Russian quarter. It is believed generally, however, that he is a victim of neglect.

"The Evening News" publishes a special dispatch from Livadia, on the authority of a physician, saying:

"The Czar has been seized within the last forty-eight hours by a series of convulsive attacks such as are the precursors of apoplexy. These attacks are accompanied by temporary recurrences of unconsciousness, due to uræmic poisoning, the result of the circulation in the blood of products which the kidneys were unable to eliminate. Several months, with signs of mitral disease of that organ, and a valvular affection of the heart, which had already on two occasions caused congestion of the lungs, latterly manifested itself with alarming frequency. All hope of the Czar's recovery has been abandoned."

In regard to the policy of the Czar with the Russian nihilists, in an interview to-day said that the Heli-Apparent's character was an enigma, but that it was improbable that the new régime would concede anything in the direction of Liberalism. If a Council of Regency were formed, with the Grand-duke Vladimir, the Czar's eldest brother, who is strongly reactionist in his views, as one of its members, the administration of the Government would be far worse than under the Czar. Stepiak expressed the opinion that among the ruling powers at St. Petersburg there were none of sufficient intelligence to advise reforms in the government of the Empire.

London, Oct. 20.—At a Cabinet council held at the Palace of the Elysée to-day, Premier Dupuy announced that he had received official telegrams informing him that the Czar's condition had slightly improved. Prayers are being offered in all parts of the Republic for the recovery of the Russian Emperor.

The "Nation" asserts that M. Hanotaux, Minister of Foreign Affairs, has received news that the Czar died last night, and that he is withholding the dispatch until the news shall have been confirmed by the Russian Embassy here. The officials at the Foreign Office declare that the Czar is still alive.

A dispatch from St. Petersburg, received here at 1:20 p. m., says the latest news from Livadia represents the condition of the Czar as so grave as to leave no ground for hope that he can survive for many days. He is suffering from extreme mental depression, in addition to his physical malady. There is a public feeling of great impatience in St. Petersburg at the patency of the news from Livadia. Prayers for the Czar's recovery are being offered from all parts of the Empire. Many persons are reassured when they learn that he is able to be out of bed, but those having no intimate knowledge of his condition have no hope of his recovery or even of his temporary improvement.

In regard to the Czar's illness, the "Figaro" says:

Eminent physicians are of the opinion that the symptoms of the Czar's malady do not present the usual signs of renal disease. It is certain that a doctor of the Czarina received an official message a fortnight ago, that he was afflicted with Bright's disease, and that he was expected to die. Dr. Zacharoff expressed his belief that it was of a cancerous nature, and that a successful operation was impossible. On the other hand, Professor Leyden believed that the growth was of a mild type.

The "Figaro" adds that the Czar has been badly nursed, and that the arrangements for treating him at Livadia have been of an extremely primitive character.

The "Figaro" publishes an article retrospective of the Czar's illness, which is believed to have been furnished by the Russian Embassy here. His malady, the article says, is the result of his attack of influenza, which developed into pleurisy, in 1903. The Czar had never fully recovered from his illness, but he refused to listen to the advice of his physicians, believing that his physical strength would eventually overcome his illness. He persisted in performing his daily arduous duties, and it was with a feeling of relief that he received his physicians' certification that he had recovered his health. This was made known to him on August 12, the anniversary of his first attack of influenza. He was accordingly removed to Belovoe Kaya, Poland, and thence taken to Spala. From there he was removed to Livadia. These changes did not produce any real effect, and the gravity of his relapse was minimized.

NEW YORK, SUNDAY, OCTOBER 21, 1894.—TWENTY-EIGHT PAGES. ALLEGED JAPANESE REPULSE. REPORTED BATTLE ON THE BANKS OF THE YALOO.

THE JAPANESE SAID TO BE ABOUT TO BLOCKADE THE GULF OF PE-CHI-LI—AN ARMY OF 40,000 SAILS FROM HIROSHIMA—CHINESE WARSHIPS AT WEI-HAI-WEI.

London, Oct. 20.—A dispatch from Shanghai to the Central News says that the Chinese report that a battle has been fought on the banks of the lower Yaloo River in which the Japanese troops, who made the attack, were repulsed with heavy losses. It is added that neither side claims a decided victory.

It is regarded as probable that the Japanese will declare an effective blockade of the Gulf of Pe-Chi-Li within the coming week.

A dispatch from Tien-Tsin reports that large quantities of munitions of war, supplied by Germans, are arriving there and being forwarded to New-Chwang and other ports on the coast. Contraband for further supplies have been concluded.

"The Standard" prints a dispatch from Tokyo, saying that 40,000 Japanese troops under command of Marshal Count Oyama, who was sent to Korea by the Russian Government, Minister of War to take command of the Japanese forces in Korea, have left Hiroshima. The destination of this force is not known. A fleet of thirty-five transports was necessary to convey them.

A dispatch from Tientsin to "The Pall Mall Gazette" says that the Chinese fleet has been completely refitted and has sailed away from the harbor. It is reported that Japanese warships are cruising about Ping-Yang Inlet.

There is a prospect of new trouble in Korea growing out of the restlessness of the rebellious natives. A large force of Tonghak rebels is threatening Seoul.

"The St. James Gazette" publishes a dispatch from Yokohama saying that several hundred Koreans have rebelled in the Province of Chai-La-Do, the extreme southwest province of Korea, and that the Japanese Government has been sent to suppress the uprising. The Koreans, the dispatch says, have become restless under the firm rule of the Japanese.

Shanghai, Oct. 20.—Four of the warships of the Chinese Southern Squadron have arrived at Wei-Hai-Wei. The Chinese steamer "Tung-Chow" which has arrived here reports that two Chinese ironclad cruisers which were being repaired at Port Arthur have reached Wei-Hai-Wei. More extensive repairs are required on the other warships, and they will not be able to leave Port Arthur for some time.

COREA HONEYCOMBED WITH FRAUD. EXAGGERATIONS OF PETTY OFFICIALS SAID TO BE THE REAL CAUSE OF THE UPRISING IN THE SOUTHERN PROVINCES.

Washington, Oct. 20.—Some surprise is expressed at the Japanese Legation at the report that the uprising in the southwestern provinces of Korea is due to the system of the Japanese Government. The Japanese Government, it is asserted, is not attempting any firm rule in Korea, or any rule at all. Its only purpose is to secure administrative reform in Korea. The Japanese troops in the country are few in number and are there for the sole purpose of protecting Japanese interests. The real reason for the revolt in the southwestern provinces, it is said, is the system of the Japanese Government. The Koreans, it is asserted, are honeycombed with fraud, and that the civil officers especially live by bribery and upon what they can extort from the natives. It is stated as a fact that the petty Government officials at Seoul live on from year to year with the expectation of securing a promotion which will enable them to retire with a pension. The Government, it is said, requires each province to pay a certain sum annually, which is raised by taxation. The officials in charge fix the tax rate to suit themselves, and after turning in the amount required by the Government, pocket the remainder.

A curious instance of this is related to-day. The officials who were related to a man who has spent many years in the East. The Korean money, he explained, is cumbersome, and a person who journeys to his home in Korea must take a great deal of money with him. The man who was related to him means to meet his expenses would need an additional force to pack the money. On one occasion the Korean official, arranged with the Korean money, had to travel extensively through the Korean Kingdom, arranged with the Korean money, had to travel extensively through the Korean Kingdom, arranged with the Korean money, had to travel extensively through the Korean Kingdom.

The meeting at the Auditorium was announced for 8 o'clock, but two hours earlier the crowds around the public entrances were so dense that the doors opened only after a long wait. There were a few hundred women admitted through the private door and escorted to seats on the east side of the auditorium.

W. J. Behan, appeared in the wing. The cheers and applause were deafening and long continued. Quiet was restored only when the enthusiastic cheering had worn themselves out, and then General Behan, as a prelude to the feature of the night, read a letter from Senator Manderson, of Nebraska, advocating protection for the sugar industry of America.

The route to the Hotel Royal lay through the historic French quarter, and on both sides of the street the residents, men and women, had gathered on doorsteps or in windows, and gave recognition to the Governor through cheers or waving handkerchiefs.

GRANT'S TAINTED RECORD. WILL NEW-YORK ELECT SUCH A MAN MAYOR AGAIN?

THE GRAND JURY SAID THAT THE SHERIFF'S OFFICE UNDER HIM HAD BEEN "MERCENARY, SLOVENLY AND WHOLLY INDECENT"—JOHN J. SCANNELL, THE MURDERER, IS WITH HIM NOW.

From every political point of view the defeat of Tammany Hall seems to be assured. The shift from Nathan Straus to Hugh J. Grant for Mayor cannot, in the opinion of the most experienced politician in this city, change the verdict which the people are prepared to render two weeks from next Tuesday against the most vicious, most degraded, most corrupt, greedy and abandoned coterie of thugs and blacklegs ever handed together for public robbery. The same mercenary gang of political thieves and ruffians who have revelled in the spoils under Gilroy's administration started in to pilfer the city treasury under the first administration of Grant. The only difference was that when the gang first got in they were less bold and barefaced in their methods of stealing. Tammany Hall, at the beginning of Grant's administration, exposed some of the rottenness and corruption existing in the Market Bureau and the Dock Department, but only for the purpose of getting the members of the rival Democratic organization out and taking complete possession of all the opportunities for thievery. No effort was made to stop the wrongdoing. Some of the identical rascals have been allowed to remain at their old posts. Being only required to join Tammany Hall, they were permitted to go on stealing as of yore.

The Public Works Department, Park Department, Fire Department and a majority of the other city departments have been in Tammany's hands about ever since Grant first entered the Mayor's office, and their record has been one of constant and continuous pecculation. There is no evidence that Grant ever made an effort to expose stealing, which he knew must be going on, unless he had reasons of his own for wanting to get rid of the thief. The Dock Department investigation was started to oust from office Edwin A. Post and James M. Matthews, the County Democracy Dock Commissioners whom Tammany found in control of the department. The game of removal was abandoned when a deal was made by which the patronage of the Dock Department was turned over to Tammany Hall. Then Mr. Grant, who had Post and Matthews before him on charges as long as the Peacock, suddenly dismissed the charges without putting on record a line of explanation.

THE CROOKED GANG KNEW THEIR MAN. The hungry and greedy gang which supported Grant in his first race for Mayor knew their man well, and were not disappointed in him. They knew his record during the three years while he was Sheriff, and had knowledge of his system for sharing in the sums levied by his deputies upon unforgotten litigants which later on was revealed by his own reluctant testimony before the Peacock Investigating Committee. The Grand Jury of March, 1889, which investigated the manner in which the Sheriff's office was conducted under Flack, Grant and previous Sheriffs, said of it: "It has been tainted and corrupt; there has been an utter subversion of the public interests to personal gain. It has been mercenary, slovenly and wholly indecent."

His present record of \$10,000 under the guise of a graft and gold mine, was but a drop in the bucket to Grant. Considering the large sums which flowed into his bank account through his plan of "working" the victims of litigation in the Sheriff's office, he might have turned out to be a more successful politician than he is known to have received. His failure to "whack up" more evenly is said to have been the original cause of the bitter feud which afterward broke out between him and the County Democracy.

When Grant became Mayor the first time it was doubtless his intention to be honest and make a creditable administration, and his first year or two in the City Hall proved to be the best. He was not a dishonest man, and his administration was not tainted. But it did not take long to show how impossible it was to conduct an administration in the people's interest under Tammany methods. Grant's record was a disgrace to the City Hall. Grant's appointments began to grow worse and worse.

The appointment of such men as "Paddy" Divver and "Tom" Grady, Police Justices; "Joe" Koch, E. T. Fitzpatrick and W. S. Andrews, Excise Commissioners; Barney Martin, Commissioner of Juries; John McEavey, James J. Martin and John C. Sheehan, Police Commissioners; Michael T. Daly, Commissioner of Accounts; Anthony J. Kelly, Police Justice; James J. Phelan, Dock Commissioner; Hans S. Beattie and "Big Tom" Brennan, Street Cleaning Commissioners; E. V. Skinner, "Abie" Schwab and P. Henriques, Bridge Trustees, and others, who were appointed to the City Hall, were a disgrace to the City Hall. Grant's appointments began to grow worse and worse.

With the experience which the "Citizenship of the county" has had of Mr. Grant's pernicious ways and methods of conducting the business of the great metropolis it is hardly probable that he will have another opportunity to put in place of honor and trust such travesties upon decency as "Paddy" Divver, "Joe" Koch and "Barney" Martin. About the only creditable thing which Grant has done since he was pressed upon him which he did not eventually make before his term expired was that of John J. Scannell, the murderer of Hugh Donohue, to be Fire Commissioner. Mr. Grant, however, did not appoint Scannell to the office. He appointed Scannell to the office of Fire Commissioner, and appointed Scannell to the office of Fire Commissioner, and appointed Scannell to the office of Fire Commissioner.

ANOTHER OHIO MOB GATHERS. THE JAIL AT NEWARK MENACED BY AN ANGRY CROWD—THE SHERIFF SWEARING IN A LARGE NUMBER OF DEPUTIES—MILITIA MAY BE CALLED OUT.

Newark, Ohio, Oct. 20.—In a cell at the county jail is a negro who was arrested in the central part of the city last night, and has since been identified as the man who assaulted Mrs. Katharine Nobling at her home in Ash-st. yesterday afternoon. Mrs. Nobling is a widow, nearly sixty years old. In order to escape the fellow opened the cellar door and threw his victim down the stairs, rendering her unconscious. When arrested the negro was engaged in digging a vault. The police sent a carriage for Mrs. Nobling, and she was taken to her home. The police are now looking for the man who assaulted Mrs. Nobling.

The jail at Newark menaced by an angry crowd—the sheriff swearing in a large number of deputies—militia may be called out.

Newark, Ohio, Oct. 20.—The Adjutant-General is anxious to-night about the situation at Newark. There is great indignation there against Ward, the negro who attacked Mrs. Lieberling and who is in jail there; especially since it is found that he served a five years' sentence for burglary here fifteen years ago and in 1885 was convicted of murder in the second degree for killing "Irish Molly," a woman of the town, and received a life sentence, but was paroled three years later by Governor Foraker. The Sheriff of Licking County telegraphs that he will send a company of militia to Newark, and he is swearing in a large number of these, and will not call out the militia unless the situation grows dangerous. The militia is a company of the 11th Infantry at Newark.

WANTS COLO. COIT ARRESTED FOR MURDER. ACTION TAKEN BY THE FATHER OF ONE OF THE MEN KILLED WHEN THE MILITIA AT WASHINGTON COURT HOUSE FIRED.

Columbus, Ohio, Oct. 20.—A dispatch from Washington Court House says that the father of Smith Welsh, one of the men killed when the mob was fired upon on Wednesday night by the militia, has made affidavit, upon which it is proposed to cause the arrest of Colonel A. B. Coit and Major John C. Kerker of the 11th Infantry. The father of Smith Welsh, one of the men killed when the mob was fired upon on Wednesday night by the militia, has made affidavit, upon which it is proposed to cause the arrest of Colonel A. B. Coit and Major John C. Kerker of the 11th Infantry.
